

NEW PRODUCT!

Super-LED® Scenelights (Patent Pending)

600, 700 & 900 Series High Intensity 8-32° Gradient Opti-Scenelight™

Officially Licensed
Warning Lights Of
NASCAR®

60C0ELZR

70C0ELZR

90C0ELZR

90C0ENZR

Three sizes to choose from to complete your total LED lighting package with the 600, 700 and 900 Series Super-LED Scenelights.

Part of a complete ambulance or emergency vehicle LED lighting package with all the benefits of LED technology.

FEATURES

- The 600, 700 and 900 Series 12 diode models are comparable in intensity to existing halogen scenelights. The 900 Series 24 diode model compares to H.I.D. models.
- Unique patented internal and external optic design directs lighting at 8-32° angles without added inserts or angle brackets.

- Model 90C0ENZR is as bright as and more reliable than H.I.D. and eliminates long installation time and the high cost replacements associated with H.I.D. lamps and ballasts!
- No high voltage.
- Lower operating temperature.
- Super-LEDs are instant "On", no warm-up or high current voltage spikes on start up.
- Uses standard series cutout, mounting hole and optional mounting flanges.
- Conformal coated internal electronics.
- LED lights do not emit ultra-violet radiation that attracts insects during night operation like H.I.D. lights will do.
- HDP® Heavy-Duty Professional 5 year warranty.
- Certified to meet KKK 1822F requirements.
- Dimensions:
600 Series: 4-1/8" (105mm) H x 6-1/2" (165mm) W.
700 Series: 3-1/16" (78mm) H x 7-1/4" (184mm) W.
900 Series: 7-1/8" (181mm) H x 9-1/8" (232mm) W.

MODELS

60C0ELZR: Twelve diodes, 2.0 amp draw, 1500 Lumens

70C0ELZR: Twelve diodes, 2.0 amp draw, 1500 Lumens

90C0ELZR: Twelve diodes, 2.0 amp draw, 1500 Lumens.

90C0ENZR: Twenty-four diodes, 4.0 amp draw, 3000 Lumens

OPTIONS

6EFLANGE: 600 Series, chrome plated flange.

7EFLANGE: 700 Series, chrome plated flange.

90FLANGC: 900 Series, chrome plated flange.

90FLANGB: 900 Series, black flange.
